Dear Voter:

I am seeking the position of Mayor of Heber City for several reasons. There is a real need for cooperation and improved efficiency in the day to day operations of our city government. There are thousands of dollars wasted each year because these elements are lacking.

I have a background in finance, insurance, real estate, appraising and accounting. I have operated a successful business in each of these areas. I believe I can improve government in Heber City and would appreciate your support in the November Election.

Sincerely,

Gordon Mendenhall
